Dedication

JOSEPH CARLTON BIDDIX, JR.

Professor of Oral Diagnosis

The Class of 1965 has been privileged to know a man whose devotion to dentistry and individual interest in the dental student will always be remembered. His understanding compassion in time of need and willingness to share our problems have lightened the load on many a dental student's shoulders.

In a spirit of grateful appreciation we dedicate our yearbook to

JOSEPH C. BIDDIX, JR.

Honorary Senior Class President

Renato P. De Santis

The Senior Class wishes to extend a special "thank you" to one of its instructors by selecting him as our Honorary Senior Class President. This man has exhibited a quality in his personality for which our class holds him in respect not only as an educator but also as a personal friend. His pleasant manner and the enthusiasm with which he imparts knowledge will have a lasting impression in our future years.

We the Class of 1965 are proud to elect Dr. Renato P. De Santis as our Honorary Class President.

In Memoriam

WALTER L. OGGESEN

Profound sorrow is expressed by the Class of '65 over the loss of Dr. Walter L. Oggesen, a friend to his fellow practitioners and faithful mentor of dental students for over thirty-three years. His passing leaves a void in the lives of all with whom he had contact. The willingness with which he sacrificed his time and energy to help the dental student has been indelibly imprinted in the hearts of numerous graduates of this school. We recall the generous help, the fatherly warmth, and joking relief in times of pressure and anxiety.

The passing of time will never dim our memory of Dr. Oggesen; for as we pursue our careers, we shall daily use a little bit of his knowledge, a little bit of his experience, and a little bit of his generosity to our fellow man. This would have been his wish.

ROBERT CAREY VINCENT ZUGAY

From the time we began our dental education on Monday, September 18, 1961 we were officially known as the Class of 1965. The year 1965 seemed so far away, especially when we realized the work ahead of us. But all of a sudden one morning ninety-two men and one young lady awoke and it was graduation day — not 1963 or 1964 — but 1965.

Somehow the days had fled by and we had passed all of our freshman anatomy exams (even Neuro), finished dissecting just as we became accustomed to our cadavers, and turned in our operative and crown and bridge endoforms for the last time. As we glance back, it seems like only yesterday when we changed from "green-hornet" gowns to clinic whites. We can remember the many hours we spent putting on rubber dams, all the appointments it took for the first few Class I amalgams and our shaking hands when we tried a mandibular block.

As our year — 1965 — arrived, all of these tasks seemed like "kids' stuff." We were Seniors now, and had big problems — like 14-unit bridges, molar root canals with six roots, and pin-retained silicates. The senior year seemed to arrive fast and even go by fast. It was the year of "assignments" and "cancellations," but most of all it was the year of graduation for the Class of 1965.

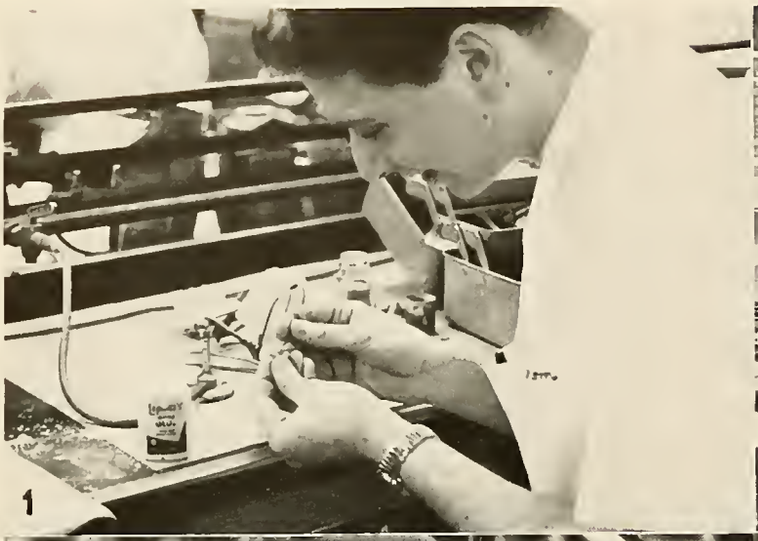
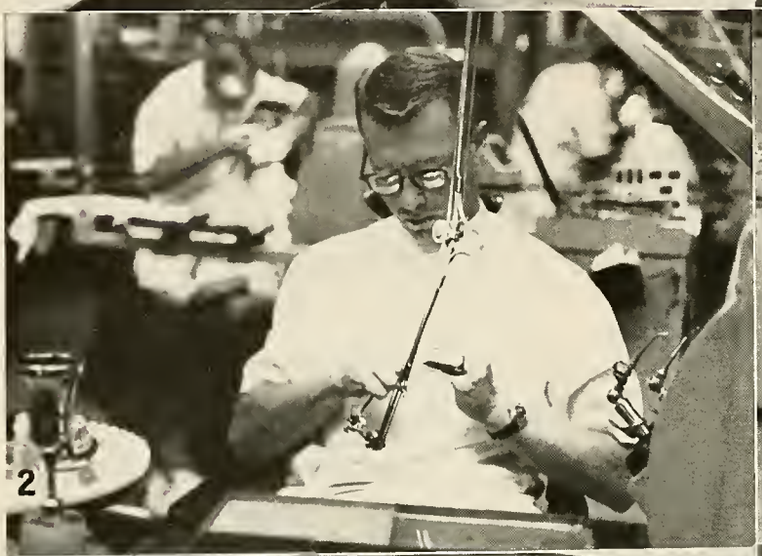
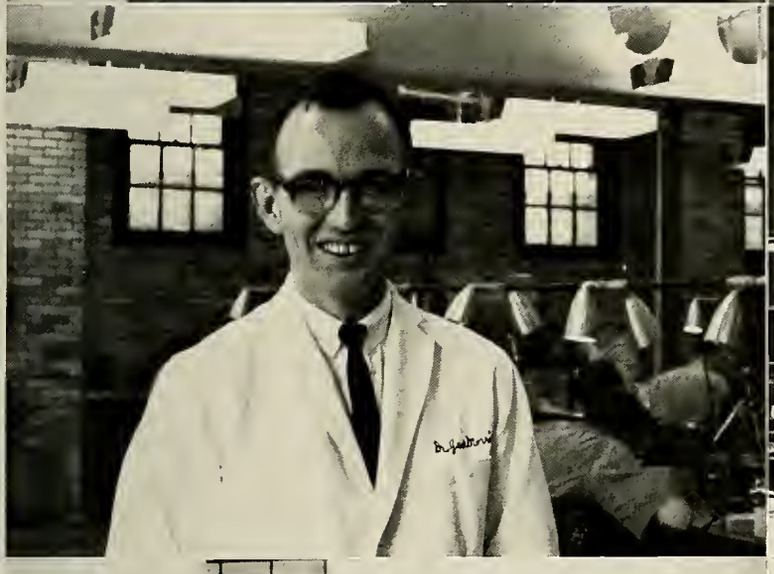
The Seniors

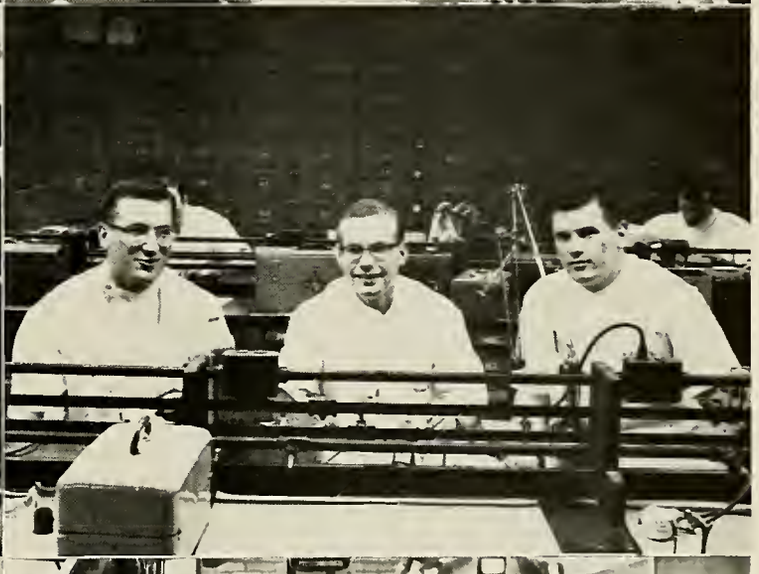




1. A little glue and no one will ever know.
2. Oh well, I didn't have anything better to do this afternoon.
3. We have this election in the bag.
4. Tools of the trade.
5. Why don't you guys get your own cute patients?
6. Boy! Does this kid have halitosis.

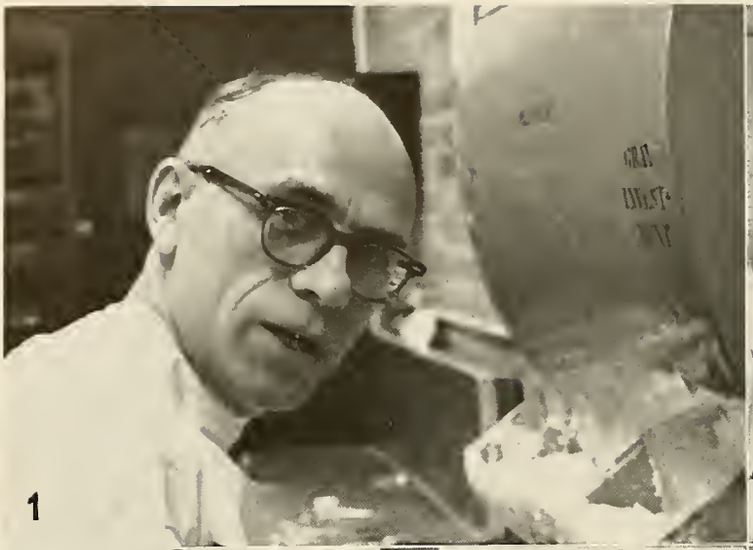
The Seniors





1. OK, Frank, just don't get too excited.
2. Now if you move those teeth forward 5 or 6 mm., you will have a perfect lip line.
3. I wonder if 6 inches is too far to file this canal.
4. Now listen, lady, all I have to do is lower the lowers and up the uppers.
5. Did you guys hear what happened to Wibby today?
6. If I squeeze harder, maybe he will turn green.

The Seniors



1. What wise guy put corn flakes in the plaster bin?
2. Do you realize we're all alone in this cubical?
3. If he did that to me, I would bite him.
4. But, Doctor, let's make a deal.
5. At a time like this. I wish I was ambidextrous.
6. Cancel my afternoon appointments. I'll be at the golf course.

We left behind us — labs, manikins, and ivorine teeth. We have replaced the green gowns with white ones. We are The Juniors — the new clinicians of the School.

This is the year of our first injection, extraction, foil and denture. The year when we scale and polish, drill and fill.

The Boards were difficult; the Skit Night was a lot of work; the clinic is a constant challenge. Yet we realize that the tasks we encounter will help us further acquire insight into the principles that we will use as Seniors and hopefully as Graduates of our School.

First Row: Hall, Johnson, T., Bronstein, Baylin, Broadrup, Johnson, D.
Second Row: Abel, Esquire, Fruchter, DiSabatino,, Casey, Becker, Felps, Bochenko, Hazelton, Batlle.

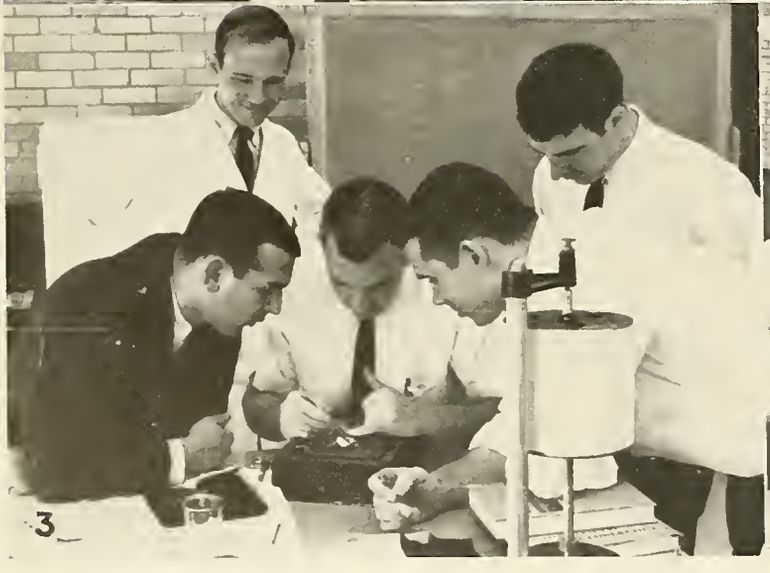
Fourth Row: Schoeb, Selznick, Magarian, Rogers, Schwenk.

The Juniors



1. I think I feel a catch.
2. I can't seem to grind this porosity away.
3. If we're lucky, it will die and we can leave early.
4. Come on, boys, it won't bite you.
5. If I send this out, I could blame the lab.
6. We're going to cure that frog if it kills him.

The Juniors

1. Those 8 o'clock lectures really tire me out.
2. Will someone please come help me.
3. Maybe this denture will fit if I polish it long enough.
4. Betty Crocker didn't say this would happen.
5. Dr. Kihn, come here and check this restoration off.
6. Dr. Ramsey will love this festoon job.

The class of 1967 moved to sophomore status armed with dentoforms, Sutter instruments, and Elmer's glue.

Academically we found the legendary microbiology course becoming a reality, and the first semester was filled with lab reports, lab reports, streaking plates, cram sessions and lab reports.

At last we had the feeling of really being in dental school; our teachers finally talked about teeth.

Technique labs gobbled up many hours of each week and sophomore conversations included such words as "Thermatrol," "articulate," "Nuttall carver" and "10-95-8-14 Right and Left marginal trimmers."

The class theatrical group proved itself again with its production of "My Fair Dentist." Our class's winning first prize at skit night was a definite high point of the year. We surprised the faculty with talent they never dreamed we had.

With spring semester came term papers, an enigma thought to be escaped in dental school.

Sophs were also faced with the decision of summer clinic, summer unemployment, or both.

With the year drawing to a close there was a growing feeling of excitement and apprehension. It was hard to realize that with the end of the operative course the next restoration would be on a live patient. Soon there would be a person on the other end of the tooth and the screw driver would no longer be a part of our armamentarium.

First Row: Faniola, Halpern, DeVries, DeRussy, Bernsohn, Donahue, Clausen.
Second Row: Greear, Altmann, Kaiser, Hurley, Bergstresser, Kephart, Krongard, Fielding, Brand, Kramer.
Third Row: Cancellieri, Gillis, Einhorn, Fader, Houck, Holston, Heffner, Gibson, Collins, Davis, Bussey, Chyzus.
Fourth Row: Abrams, Belvin, Behan, Fox, Gold, Commette, Easmann, Bukzin, Giordano, Brownstein, Hutton, Fine, Dashiell.

The Sophomores

First Row: McCarthy, Lukowski, Soriano, Pierce, Rupprecht, Vandenberge, Lopez, Nicholson, McConnell.
Second Row: Mellion, Winter, Rosenberg, H., Schoppert, Rea, Marcy, Lawson, Sweeney, Rabin, Sheehe, Vandermer.

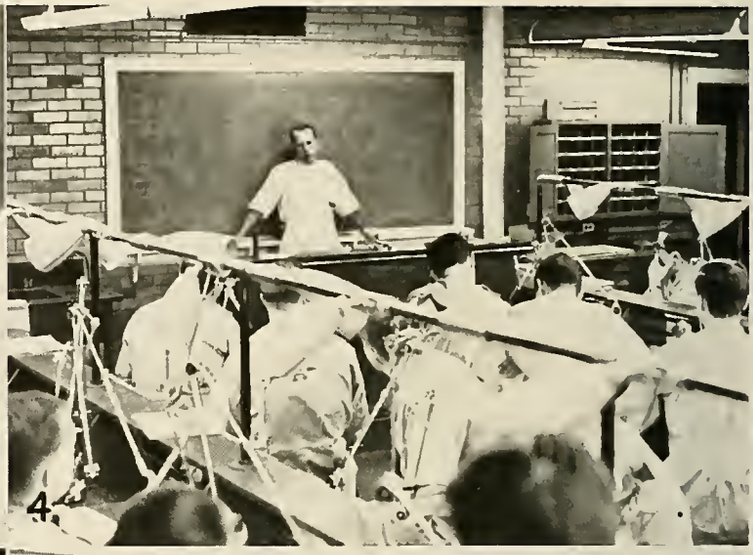
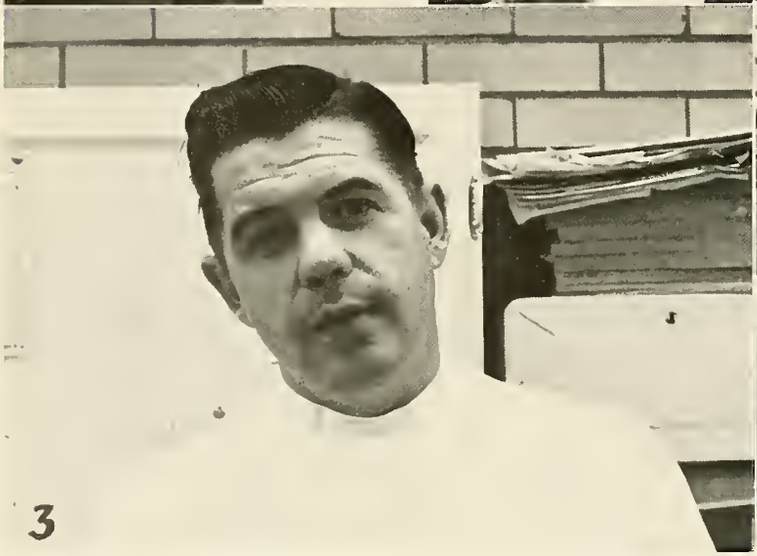
Fourth Row: Vendelis, Levin, Lizewski, Warner, Steinberg, Rindley, Nickel, Parmentier, McInnes, Litofsky, Schwartz, Low, Woods.

The Sophomores





1. Don't show it to him now. It's time for our cigar break.
2. Here we are in crown and bridge lab.
3. Come here. I'll do it for you.
4. I would say that if you hit the screw, your initial penetration was too deep.
5. Don't look now but here comes you know who.
6. These heatless stones are great for manicures.

The Sophomores

1. The only thing holding that triangular bar in is willpower.
2. Let's see how we can fix this up, dear.
3. Where did the other guys in this row go?
4. Well, son, do you have 60 cents for a new tooth?
5. You say we ran out of Sterno?
6. Say, do you know a good lab man?

George Groome Dick Walsh

In September 1964, one hundred previously unacquainted persons assembled themselves into a freshman dental class. Fortunately the versatility of the group added color to the general attitude of the class from the first lecture through to the close of this first year.

Having become immediately socially adjusted, the class worked together consistently from the beginning toward improving their frequently jeopardized academic status. Histology, Anatomy, Biochemistry, none of our courses were going to be easily overcome; they relentlessly hung overhead for nine long months. The challenge of textbooks was just a beginning, for we were also becoming aware of developing manual skills. Exams and deadlines, interspersed with vacations, built a complex calendar which made time move rapidly.

The hurdles of our first year gradually seemed to pass, and anticipation of future years began to build. Spring brought, along with increased difficulty to concentrate, contemplation of three months' vacation, and a clearer focus on the sophomore year. The Class of 1968 has completed its freshman bout. We now face our sophomore year with new knowledge and skills — we hope it is a success.

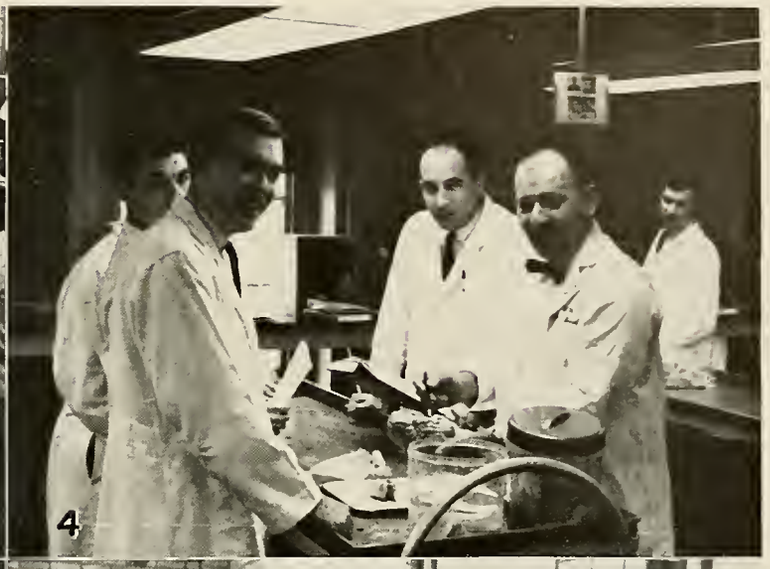
Third Row: Wong, Theroux, Wyman, Wood, Levy, Satz, Wachuk, Thibault, Weinkam, Weintraub, Trager, Taggart, Scammell, Szabo.

The Freshmen

1. Just take a little off the end please.
2. I bid three hearts and one liver.
3. That is the freshest one we have.
4. What are you guys trying to do? Ruin the curve?
5. What's wrong with the color of the wax?
6. It's .002mm. shy.

The Freshmen



1. Oh! that smarts.
2. Michaelangelo couldn't have done better.
3. Who left their lunch in here?
4. Ah, ah, ah, ah, ah.
5. The closer I look, the worse it looks.
6. Gee, Dental Materials lab is great fun.

Gorgas Odontological Society

The Gorgas Odontological Society is an honorary scholastic organization established in 1916. The Society was named in honor of Ferdinand J. S. Gorgas, an alumnus and a leading contributor to dental education and literature.

Membership in the Society may be achieved in either the junior or senior year. Consideration for membership in the Society is based on the premise that certain academic standards have been met in the first two years of the course.

Monthly meetings afford members educational benefits beyond the outlined dental school curriculum through the presentations of guest speakers. Each year at the spring formal senior members are presented with a key and certificate. The faculty advisor is Dr. José E. Medina.

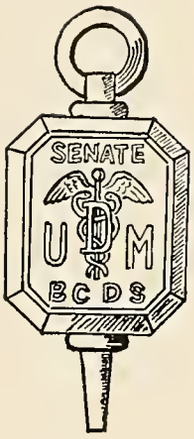
Student Senate



OFFICERS

President ..... JAMES E. BRADLEY

Vice President ..... JOSEPH E. MAZIKAS

Secretary-Treasurer ..... MARTIN L. CHAPUT

The Student Senate had its beginning at the Baltimore College of Dental Surgery in 1952 with the primary objective of serving as a liaison between student body and the faculty. It tries to promote and maintain harmonious student-faculty relations and considers problems of common interest and recommends solutions. In addition, the Student Senate contributes to the regulation of student life and activities. Five dances are planned for the school year, including the Student Senate Mixer, three class dances, and the senior banquet and dance. The Senate also schedules annual tournaments in bowling, basketball, and softball.

Interfraternity Council

OFFICERS

President ..... MICHAEL OLES

Vice President ..... HERSCHEL KAUFMAN

Secretary ..... JOSEPH MAZIKAS

Treasurer ..... STEVEN NACHMAN

The purpose of the Interfraternity Council is to create and maintain interfraternal feelings throughout the student body and impartially govern those activities of the fraternities connected with School regulations. The Council is composed of the presidents and vice presidents of each of the dental fraternities.

As one of its major functions, the IFC supervises the annual two-week rushing program in February. It is also instrumental in organizing many of the sports programs at the B.C.D.S., as well as its annual spring boat ride.

This year's officers were President, Michael Oles — Xi Psi Phi; Vice President, Herschel Kaufman—Alpha Omega; Secretary, Joseph Mazikas — Psi Omega; Treasurer, Steven Nachman — Sigma Epsilon Delta.

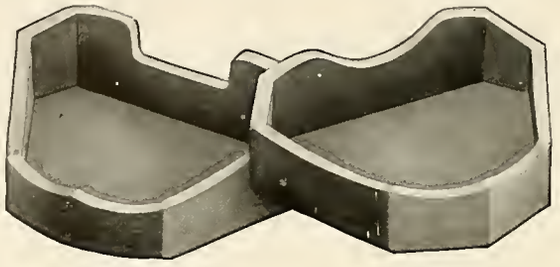
Good Study Models Make a Good Impression on Patients



COLUMBIA RUBBER MODEL-BASE FORMERS

Make Neat Bases on Study Models

per Set—1 Upper and 1 Lower

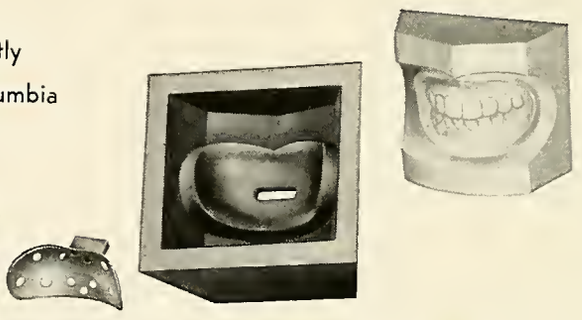
No. R1X—Jumbo Size $5.50
No. R1 —Large 4.75
No. R2 —Medium 4:75
No. R3 —Small 3.75

Catalog No. 33 describes many useful models and accessories.

If you do not have a copy, write for one today.

To have perfectly smooth, symmetrical, nicely finished bases on your study models, simply pour plaster or stone into formers and mount anatomical casts. After plaster has set, a beautiful set of models is easily removed from the soft, flexible model-base formers. Directions tell how these formers enable you to make upper and lower models which occlude automatically.

Anterior-Bite Models Made Neatly and Quickly with the NEW Columbia Anterior-Bite Model Former . . .



Ideal for making models for pre-extraction records for immediate or permanent dentures.

- A special anterior impression tray takes impressions of both upper and lower together; no need for separate impressions.
- Impression tray is then pressed into slot in the flexible rubber model former. With one pouring of plaster or stone a neat, sharply-outlined model of the anterior bite . . . in one piece . . . is easily produced.

Neat, presentable models of the anterior bite are also advantageous in a "before-and-after" demonstration to the patient.

Order today this anterior-bite model former with one tray—Cat. No. 903—$7.50
Extra trays $1.50 each

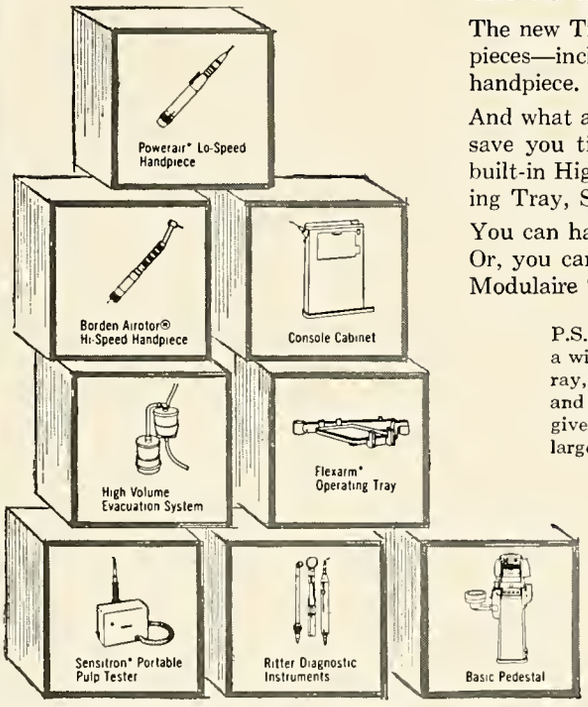
Modulaire*...by Ritter

We're not kidding!

The new Tri-Drive* Air System gives you your choice of handpieces—including the new Ritter Powerair* Lo-Speed, Hi-Torque handpiece.

And what a line-up of accessory options—every one designed to save you time and energy: the handsome Console Cabinet, a built-in High Volume Evacuation System, the Flexarm* Operating Tray, Sensitron* Pulp Tester—the list goes on and on.

You can have all of these with the Modulaire Console Deluxe. Or, you can order the basic Modulaire Pedestal and add these Modulaire "building blocks" as your practice grows.



P.S. To complete your Ritter-equipped operatory, there's a wide choice of proven Ritter equipment: Modulex® X-ray, Ritter Lights and Chairs, the Castle 777 SpeedClave, and more. And the Ritter Professional Equipment Plan gives you the equipment you need, right now, without a large cash outlay. Just ask your Ritter dealer.

hallmark of a reliable product

a guide for buyers of dental supplies

Professional success in dentistry—reputation and acclaim—is earned by hard work presented with integrity, accomplished with skill, and resulting in satisfaction to patients.

A dental manufacturer wins success in the same manner. Research, product development, convenience packaging, advanced engineering . . . fair prices for fine quality . . . supplies and equipment that satisfy dentists the world over because they contribute functionally to professional skill.

Q.

Is this dentist

( ) Educating the patient?
( ) Demonstrating his professional skill and knowledge?
( ) Putting the patient's fears at rest?
( ) Taking the first step toward easy and accurate tooth color selection?

A.

ALL FOUR!

The Blend Selector for Trubyte Bioblend is a unique patient education aid as well as a prosthetic aid. Your patients will quickly recognize the *personalized denture service* it makes possible. Show a patient how natural her denture smile can be, and you remove many of the psychological obstacles to the denture experience. And when you use the Blend Selector to evaluate the patient's tooth color requirements, you take the first and most important step toward final success of the esthetic restoration.
